

CARIBBEAN COSTA RICA

MARCH 31-APRIL 6, 2012

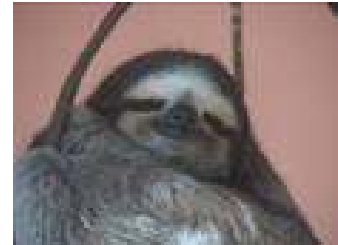

Costa Rica is the #1 destination worldwide for nature and adventure travel. Our unique tour combines a variety of nature and cultural activities in the eastern regions of the country. You will learn about the diverse population of Costa Rica which includes descendents of the native indigenous tribes, the Spanish and the Africans whom they brought as slaves during colonial times, and the Jamaicans and other Caribbean islanders who came in the late 1880s to build the railroad and work on the emerging banana farms. Only on our tours can you learn about Black Heritage in this region, one of the least known throughout the African Diaspora.

Tour Highlights:

- + Walk in the rainforest to Costa Rica's most important archaeological ruins (Guayabo National Monument) and learn about the indigenous tribes that lived there over 3,000 years ago.
- + Have a hands-on cooking lesson in making tortillas
- + Enjoy typical folk dances performed by local school children
- + Visit the world's only Sloth Refuge
- + Attend a presentation about African Descendents in Costa Rica
- + Take an *optional* canopy / zipline tour through the rainforest.
- + Shop for Costa Rican crafts in Puerto Viejo and Moravia
- + Enjoy the sculpture garden of your San Jose area hotel; the scenery of the mountains and volcano from your lodge in Turrialba, and your ocean-front resort on the Southern Caribbean coast.

Comments from Tour Passengers

"The combination of an eco-nature and black culture tour exposed me to a fascinating experience that I didn't know existed." **Rev. Richard T. (IL)**

"I highly recommend the trip to anyone who wants to know more about the African influence in Central America." **Joyce F. (retired educator, MD)**
